

Software and Hardware Marking Systems

Easy Marking-System EMS

PLOTTER – Easy-Marking-System EMS

The easy marking system from **CONTA-CLIP** allows you to label all **CONTA-CLIP** terminal markers, incl. sheets of labels and various cable markers.

- Best quality and simple handling using the combination of the **CONTA-CLIP** plotter pen **PP** with the special **CONTA-CLIP** ink cartridge TP.
- Exact and neat labelling due to the guiding of the plotter arm on both sides.
- The high variability due to the construction of the **EMS plotter** allows it to accommodate different elements simultaneously, also larger scale geometries. Since elements for different labeling tasks fit in the **EMS**, the work can be carried out especially quickly and variably.
- Simple and practical handling due to rapid and uncomplicated exchange of the inlays.
- Speediness in the form of a high-speed labeling using the plotter software **CONTA-Sign CS**.
- Simple labeling using the plotter software, which allows various quick marking systems to be printed simultaneously.
- Excel and access tables, text files and files from CAD/CAE and e-plan programming can be imported.

| Type | | Cat. no. |
|----------------------------|--|---------------|
| EMS-2 | | 1610.0 |
| Easy-Marking-System | consisting of: Plotter, power pack, connecting cable (parallel interface cable for connection of Plotter and PC) Software CONTA-Sign in German, English and French (based on Windows 96/98/2000/ME/NT/XP) | |
| EMS-2 Starter-Kit | consisting of: Plotter, power pack, connecting cable (parallel interface cable for connection of Plotter and PC) Software CONTA-Sign in German, English and French (based on Windows 96/98/2000/ME/NT/XP), 2xCCI-1 (1594.0), 1xTP (1595.0), 1xPP (0,25 (1587.0), 1xCC-1 (1597.0), 1xPC-1 (1598.0) | 1612.0 |
| CCI-1 | Plotter-Inlay for SB 5/10, SB 6/10, BSTR 10/5, BSTR 12/6 | 1594.0 |
| CCI-2 | Plotter-Inlay for SB 8/10 | 1592.0 |
| CCI-3 | Plotter-Inlay for SB 7,5/10, AD 1/5N | 1593.0 |
| CCI-4 | Plotter-Inlay for ADQ | 1600.0 |
| CCI-5 | Plotter-Inlay for KBH-S4 | 1601.0 |
| CCI-6 | Plotter-Inlay for AD 1/5, AD 1/6, AD 1/8, AD 1/16N | 1602.0 |
| CCI-7 | Plotter-Inlay for AD 1/12N | 1603.0 |
| CCI-8 | Plotter-Inlay for sticker cards for appliances and complete units and marking of terminal blocks ESO GT1 (2580.0), ESO GT2 (2581.0), ESO (2584.0) f. SchT7 and ZschT 1,2,3,4; ESO 3 (2585.0) f. ZschT5 and BST 8 (2521.0) f. SchT8 | 1604.0 |
| CCI-10 | Inlay for Maxicard MC SB 4, MC SB 5, MC SB 6, MC BSTR 10, MC BSTR 12 and MC ESS | 1606.0 |
| CCI-11 | Inlay for SchT 9,10 and ZSchT 6 | 1607.0 |
| TP (5 x 1 ml) | Replaceable ink cartridge (our etching ink is quick-drying, smudge-proof, resistant to light and fast to petrol and methylated spirit on suitable plastic materials!) Due to the replaceable cartridges no laborious refilling of ink is necessary! | 1595.0 |
| TPP (5 x 1 ml) | Ink cartridge Paper for PPP (Plotter pen paper) for printing of paper (e.g. ESO marking cards) | 1614.0 |
| PP 0,18 mm red | Plotter pen (Colour code red = line width 0.18 mm) | 1586.0 |
| PP 0,25 mm white | Plotter pen (Colour code white = line width 0.25 mm) | 1587.0 |
| PP 0,35 mm yellow | Plotter pen (Colour code yellow = line width 0.35 mm) | 1588.0 |
| PP 0,50 mm brown | Plotter pen (Colour code brown = line width 0.50 mm) | 1589.0 |
| PP 0,70 mm blue | Plotter pen (Colour code blue = line width 0.70 mm) | 1590.0 |
| PP 1,00 mm orange | Plotter pen (Colour code orange = line width 1.00 mm) | 1591.0 |
| PPP 0,18 mm red | Plotter pen paper (Colour code red = line width 0.18 mm) for plotting on paper (Inlay CCI-8 1604.0) | 1615.0 |
| PPP 0,25 mm white | Plotter pen paper (Colour code white = line width 0.25 mm) for plotting on paper (Inlay CCI-8 1604.0) | 1616.0 |
| PPP 0,35 mm yellow | Plotter pen paper (Colour code yellow = line width 0.35 mm) for plotting on paper (Inlay CCI-8 1604.0) | 1617.0 |
| PPP 0,50 mm brown | Plotter pen paper (Colour code brown = line width 0.50 mm) for plotting on paper (Inlay CCI-8 1604.0) | 1618.0 |
